#### Learning Videos

	Career and Growth Ladder in Ethical Hacking	18m	
	Domains and Process Implementation under Ethical Hacking	54m	
	Ethical Hacking in Network Architecture-Demonstration	48m	
	Ethical Hacking in Web Applications-Demonstration	50m	

## Coding Challenges Details:

### Program 1:

```
package shortestpalindromeexample.java;
import java.util.Scanner;

public class ShortestPalindromeDemo {

    public static String shortestPalindrome(String str) {

        int x=0;
        int y=str.length()-1;

        while(y>=0){
            if(str.charAt(x)==str.charAt(y)){
                x++;
            }
            y--;
        }

        if(x==str.length())
            return str;

        String suffix = str.substring(x);
        String prefix = new StringBuilder(suffix).reverse().toString();
        String mid = shortestPalindrome(str.substring(0, x));

        return prefix+mid+suffix;
    }

    public static void main(String[] args) {

        Scanner in = new Scanner(System.in);

        System.out.println("Enter a String to find out shortest palindrome");

        String str=in.nextLine();

        System.out.println("Shortest palindrome of "+str+" is "+shortestPalindrome(str));
    }
}
```

## Program 2

```
import java.util.Stack;

int data;
Node next;

Node(int i)
{
    this.data = i;
    this.next = null;
}
};

}

    node = head;
    while (node != null)
    {
        int top = s.pop();
        if (top != node.data) {
            return false;
        }
        node = node.next;
    }

    return true;
}
